CLASSIFICATION SINCRET

x X1	
X1	
<b>5.</b>	
	epaulets with artillery insignia were firing with carbines at the firing range in Altengrabow. On 3 November, about 30 troops engaged in field wire
	laying near the camp. Between 1 p.m. and 2 p.m. on the same day an undetermine
	number of troops, in the training area, practiced firing with a gan which, at about 7:30 p.m., was towed to the camp by several prime movers. During the fir
	practice, the area had been restricted.
	one Senior Lieutenant Yermilov (fnu) of Unit Polegon belonged to the administrated and cadre personnel of the training grounds.
	and caute personnel of the training grounds.
1.	Comment. During the period mentioned, railroad records indicated 34
	snipments to the posts and the known exercises of the Righth Gds Army of
	artillery units of the IV Arty Corps, the Eighth Gds Army and the Third Shock Army. After the departure of the troops, the quarters were probably only
	lightly occupied, as the units permanently stationed there most probably also engaged in exercises.
3.	Comment. Probably a column of the 20th Army AT Arty Brig (US), which, with light elements, transferred to Branderburg by road between 29 September
	and 4 October.
4.	Comment.
40	the training grounds is permanently occupied by units
	of the 10th How Arty Brig (US) and the 44th Army Arty Brig.

SECRET,
